TURN DREAMS INTO FURNITURE

Following the changing world and various lifestyles of our clients, we have designed a new furniture system that grants almost unlimited possibilities of configuration. Thanks to this system, you will create exactly the kind of furniture you need. A rich colour palette, various types of legs and handles - we have thought it all through so that you can arrange your dream interior.

HOW TO CREATE YOUR DREAM FURNITURE WITH CREATIVE

YOU HAVE A CHOICE OF 11 FRONT AND BODY COLOURS:

YOU HAVE A CHOICE OF 12 TYPES OF HANDLES

YOU HAVE A CHOICE OF 12 TYPES OF LEGS

11 body and front colours, 12 types of handles including a push-to-open option, 12 types of legs. This wide palette of choices will allow you to create furniture perfectly fitted to your needs. You can create from scratch or use our ready-made compositions and change just some elements such as the colours. Feel free to experiment. The configuration tool won't let you design non-functional furniture.

CHOOSE A READY-MADE OPTION AND ALTER IT AS YOU PLEASE

Creative is a system of unlimited possibilities. To make your choices easier, we have prepared ready-made options in the configuration tool. We have suggested a given colour, layout of shelves and cabinets, legs and handles. If you like one of the suggested options as it is, you can order it straight away. You can also freely change any feature to make it into your perfect piece of furniture.

CHANGE

You can change any aspect of the suggested configurations. Move the doors and shelves as you please in your wardrobe or bookcase. Experiment with colours, test various options of handles and legs. A small alteration can completely change the character of the furniture piece.

ADD

By removing certain elements, you can alter the functionality of the piece. Remove a door to get more open storage. Instead of handles on the doors, you might decide to go with the push-to-open system.

REMOVE

Do you prefer storing things in drawers or on shelves? Or maybe your most needed element is a steel bar for hanging clothes?

CREATE YOUR OWN

1. CHOOSE READY-MADE FURNITURE OR CREATE YOUR OWN

CREATE YOUR OWN

Creative is a furniture system of unlimited configuration possibilities. Create a piece of furniture just for you - exactly the way you want it - or use the sets we have prepared for you. Change the layout of the pieces or their appearance. A rich colour palette, many types of handles and legs - we have thought it all through so that you can create your dream interior.

THE POWER OF CREATIVE COLOURS

Each is different, each is special. On their own or put together - they can introduce a unique atmosphere to the interior. The Creative colour palette is a thoroughly thought-through set of 11 colours. It opens an unlimited range of possibilities to create completely different worlds - from minimalist and subdued interiors to vibrant eclectic spaces.

THE MAGNIFICENT ELEVEN

LIGHT OAK

The lightest of Creative's wooden shades resembles the real wood structure. It introduces harmony, peace and bright atmosphere to your interior. It brings to mind the colour of the washed wood of seaside cabins. It will look great in an idyllic cottage in the country as well as in modern spaces.

HONEY OAK

Creative's warmest wooden shade. It contrasts cool colours and brings warmth and softness to the interior, making you want to spend more time in it. It goes perfectly with black or bottle-green, colours that bring out its structure. It's a perfect choice if you want your furniture to bring a warm afternoon glow into your interiors.

BROWN OAK

This neutral, subdued wooden shade generates a calming, soothing and relaxing effect thanks to the cosy atmosphere it creates. It works great with light or dark elements. Because of its neutrality, it will blend into any interior without distorting its style.

DARK OAK

This intensive wooden shade creates a serious and noble atmosphere making a timeless interior. It works best with black. Metal legs or leather handles highlight its fine character. A perfect choice for those who appreciate classic interior solutions.

GREY

Grey, but not dull. A colour definitely worth introducing to your interior. Its universal character and neutrality make it a perfect match for any other colour from the Creative palette. Grey can be a base for almost any style. It has many faces depending on the chosen elements. It looks great with gold or silver that give it lightness and modern elegance.

Find out about the possibilities and effect of the Creative colours.

WHITE

And then enters he - all in white. A colour that will brighten any interior making it spacious and light. It calms, soothes and relaxes. Thanks to its universal and timeless character, it is loved not just by Scandinavian style enthusiasts. It matches well with all Creative colours regardless of the style. You will create a classic, timeless interior design by matching white with black elements. When put together with light wooden tones it introduces lightness and harmony.

BLACK

A sophisticated colour which, in its depth, incorporates everything that is associated with elegance. It will fit in every interior while adding class. It will cooperate with any other Creative colour. Going with black for all details will introduce a strong accent which will not disturb the harmony of your interior. Mixing it with light wooden tones will bring out its strength and make it stand out among the other parts of the decor. Adding golden elements will enrich every interior and give it a luxurious character. Perfect for both modern interiors and those more traditional.

INDIGO

An exceptionally noble colour. Nearly as deep as black, also brings in elegance. In the semi-matt finish, it becomes even more distinguished. It matches great with almost any other Creative colour creating completely different visual effects. Matched with white or light oak, it makes a marine-like interior. Matched with green or saffron, it brings in energy, while gold will give it an elegant, exclusive character. Its possibilities are unlimited - just like yours - in the Creative System.

SAFFRON

The most vivid colour of the Creative palette. It will make any interior stand out introducing vibrance and a sunny atmosphere. The energy embedded in saffron will lift everyone's spirits. All you need is one piece of furniture in this colour to completely alter the mood. This sunny interior hero goes perfectly with black, white, grey and indigo. For those who like the less obvious colour matches, it will be ideal to put it together with green or nude, which will liven up the interior even more.

GREEN

Bottle-green, thanks to its depth and richness, looks different depending on the surroundings. The painted version has been given a semi-matt finish to give it an even more refined character. It fits perfectly with dark colours that enhance its depth or with brighter ones that make it stand out more. This colour is great for modern interiors both as the dominating theme and as the counterpoint in a monochromatic arrangement. Vibrant green furniture perfectly complements interiors in the urban jungle style, full of plants.

NUDE

The most energetic Creative colour that seems to change depending on its company. This furniture colour brings to mind the inside of a juicy melon. It will make every interior more attractive. Dark accessories will highlight its succulent colour and make it the main accent. Together with brighter colours, it will work great in interiors to which we want to introduce warm and positive energy. When combined with golden elements, it makes a piece of furniture that will catch everyone's eye. One thing is certain: if you want to break away from boredom - nude is your colour!

EVERY DETAIL COUNTS

Oak, sturdy metal, or leather - elegant and really pleasant to the touch? The Creative selection of handles and legs is proof that the power of decoration is in the details. The smallest element has an impact on the appearance of the furniture, but also helps to define the style and mood of the whole interior. Learn about all the Creative elements and decide which ones you will invite to your home.

A UNIVERSE OF POSSIBILITIES

There aren't two people in the world who have the same idea of an ideal home. Everyone has their own expectations and ideas. Creative is a system that was designed for everyone to construct any world they want in their interior. A classical living room with a retro touch or an idyllic dining room full of juicy colours. Learn about the range of possibilities of Creative and turn your dreams into furniture that will make a space that will meet all your needs.

Marta Krupińska - Graduate of the Industrial Design Department at the Academy of Fine Arts in Poznan. Winner of many prestigious awards like 'Good Design' in 2011, 'Product of the Year' 2012, 'Humane Design' 2019 (Young Users collection) or 'Must Have' 2020 (Slide sofa). What does Marta Krupińska think about while designing? About everything that is most important here, at VOX. About functionality, simplicity, ergonomics, precision, aesthetics, universality. But first and foremost she thinks about the human. That kind of thinking always brings good effects, e.g. the Simple and Young Users collections or Creative.

DESIGNER MARTA KRUPIŃSKA

,I'm very lucky to have been part of groundbreaking ideas at VOX for years. Creative is, without a doubt, the project of my life, a challenge I was waiting for. While working on this system, I had to find balance between technological restrictions and functionality and aesthetics. Everything had to be of top quality and in the spirit of sustainable growth.

Creative gives almost unlimited possibilities of configuration because it's modular not just on the outside, but also on the inside. It often happens that we see a beautiful wardrobe but we would prefer more drawers in the central section or two bars instead of shelves. Closed systems always have a 'but' - and Creative is an answer to most of them.

SITTING ROOM

The sitting room is a place where you... live! It is where our daily lives go on, where we need comfort, which plays a key role along with aesthetics and functionality. What is your definition of comfort? Moderate minimalism, an eclectic storm of colours, or a home oasis of peace? Here are our proposals made in Creative System. Find your inspiration, create a space that will fulfil the needs of the whole family and let everyone find their place of comfort.

EARTHY COLOURS

If you want to spend your time at home with a feeling of inner peace and balance, use the natural palette of Creative. By choosing a bookcase and sideboard in the colour of solid oak, you will build a coherent foundation for the whole space. Creative System allows to freely arrange the shelves and drawers. You can choose completely open designs or decide which sections should be hidden behind doors.

To counter the subdued colours, use a set of three coffee tables in different tones from the Creative palette - grey, white and oak. Add slender metal frames or go with solid wooden legs. Mixing these two will work well too.

IN FULL BLOOM

Spring is your favourite season? What if you could enjoy its aura for the whole year? It is possible. The sitting room is the perfect space to be filled with the most beautiful colours of spring. Create your own composition that will bring you joy and will let your house blossom.

Pastel shades, greenery, the lightness of form, plenty of space for plants - here's a recipe for a house where spring lasts all year! A bookcase with doors, dresser and a coffee table in the energizing nude colour from the Creative palette will bring positive energy to any interior. By putting them on black legs, you will make them lighter and bring their colour out even more.

Green shelves in a nude bookcase? Why not? Creative allows you to choose their number and colour. To counter the powdery mood go with a bottle-green TV unit.

NEVER ENOUGH TRADITION

There is something extremely soothing about the classic look. This is why so many of us appreciate timeless interiors so much. The colours and diverse options of Creative will allow you to build a coherent, classy space that will be appreciated by different generations.

A well thought-through combination of modern and traditional style will bring class and elegance to your interior. Dark oak shaded furniture will work great in such setting.

The extendable table with massive legs will serve during many family moments and the spacious sideboard will provide plenty of storage space. By choosing skew legs and black handles, you will give it a slight retro finish.

If what is most important in your home is the everyday family life, you will appreciate the simple, traditional and practical things. To make the most of your day-to-day routine, you need a space that will bring order to your home and make your shared moments more pleasant.

Where the family gathers at the table and chaos is a frequent occurrence, a spacious sideboard will help in maintaining order. Finished with black legs and handles, it will become more classy and timeless.

On such a solid base, the table will bear all family gatherings. Choose a lighter shade of wood from the Creative palette to make clear who plays first fiddle in your dining room.

IN BLACK AND WHITE

When you can't decide on your interior colours, go with the ultimate classic - black and white is a colour marriage that will never go boring and always looks stylish. A clear space broken by delicate contrasts is the perfect solution for enthusiasts of simplicity and order.

When deciding on a black-and-white interior, make sure to use details that will counter the monotony and give the space an unobvious character.

Configure your own black-and-white bookcase with a custom layout of shelves and cabinets. It will not only amaze with its form, but will also showcase all your favourite decorations and accessories. To complete the composition, combine a black and a white coffee table into a stylish set. The perfect dwelling in black and white!

For some a dining room is mainly a place to have their meals, for others - an open, multifunctional area where they celebrate their everyday lives, one where practically everything happens. Our expectations towards the dining room should be the main factor marking the direction of its arrangement. Do you want the dining table to play the main role in your house or do you prefer it to be part of a big living room, always full of life? Is it your goal to achieve inner peace or a vibrant space bursting with energy?

Colourful but tasteful. The match of bottle-green and vibrant saffron will bring a good load of positive energy into your dining room and will make you not want to leave it. Where the table plays the main role, it's good to have a spacious sideboard that will hold everything that's necessary and help keep things tidy.

DINING JUNGLE

A dining room where you spend the best moments at your family table is a perfect place to create an exotic atmosphere allowing us to interact with our beloved nature on a daily basis. A bottle-green dining table is a perfect central character for an 'urban jungle' dining room.

If you want your kitchen accessories to be a decorative part of the interior, configure your Creative shelf system that will showcase them nicely.

Add lots of green plants and you will have an interior full of nature, that will introduce extra freshness to every meal at the table.

INNER PEACE

Every day you return home looking for an asylum from city noise? If you do, you know yourself how important inner peace is. Obtain it by creating your balanced space of gentle colours that will transport you to an idyllic world of nature and inner harmony.

Nothing will make the interior more natural than using subtle colours, materials and accessories bringing to mind the natural world. The harmonious composition of a bookcase, dresser, cupboard and a dining table in the light oak colour will introduce a friendly atmosphere.

To configure the most ascetic furniture in Creative, choose the push-to-open option instead of traditional handles. The simplicity of form, no unnecessary accessories and geometric coherence make up a perfect harmony of interior.

KITCHEN PROVENCE

Dreaming of a charming cottage in Provence, where the joy of idyllic living and carefree, snug atmosphere make the time pause for a while? Create your own Provence at home and travel to your dream destination without leaving your kitchen!

White makes the best background for a rich kitchen scenery inspired by the Provencal style. Such interiors are determined by the details and accessories.

Build a white bookcase with such a number and layout of shelves that will allow to showcase them best. The solid partitions of the bookcase will draw a frame around your kitchen lab. Spacious drawers will fit all the remaining objects. Choose dark oak coloured legs and handles to enhance the idyllic feeling.

YOU CAN CREATE A DIFFERENT COMPOSITION FOR YOURSELF

The Creative Table is ready for all tasks that you have planned for it. The colourful main character of your dining room? Or a neutral, toned-down companion? Also the legs you choose determine its character: wooden, metal, skew or straight and slender. Every variation allows the table to keep its extendable properties.

BEDROOM

You should arrange your bedroom with great care. The place where we begin and end every day should be our home oasis of tranquility and comfort, which means something different to everybody. Some feel best in bright, minimalist interiors, others need the depth of dark colours to fully relax, and there are also those who want to wake up to vibrant colours that awaken all senses. The possibilities of Creative allow to fulfil all these needs. What bedroom do you dream of?

MINE, YOURS, OURS

When the family grows, our home enters a completely new reality. Everyone has to adjust to it and so does the space. Worried if your home can handle such changes? Don't be. With Creative, you will design an interior that will meet all the new needs of your family.

A well-designed bedroom will hold the life of the whole family no matter the circumstances. To create harmony in the daily chaos, choose practical and aesthetic solutions. A large bookcase, dresser and cabinet will store everything necessary and keep things tidy.

A creative space or a space for creation? With the Creative system you will design an interior that will harmoniously combine all your needs. Free your inner potential and express yourself in creating your perfect bedroom.

Brown oak furniture will allow you to create a coherent space. To subtly brake the tone, choose different handles for the wardrobe, dresser and bedside table.

You want to divide a section of the bedroom for creative work? Choose a grey desk that will stand out against the whole interior without distorting its harmony.

STUDY AND HOME OFFICE

At a time when working from home more and more often becomes our everyday reality, it's a good idea to provide a space allowing you to focus in peace. A home office in an especially designated room or a work corner in your bedroom or living room? The possibilities are plenty. Sometimes a desk and bookcase are enough to create a perfect work space. And if you are arranging a professional office, you can endow it with a friendly home atmosphere. This will make it a place you happily return to. See for yourself that even the smallest details from Creative have the ability to transform an interior into one where work will be sheer pleasure!

OFFICE FOR SPECIAL TASKS

Work from home, project after project, the constant need to develop or a passion that requires time spent at a desk every day - all this calls for a space for special tasks! It would be great if it could fit two people at once and was always open to new challenges. A little space and functional furniture can add up to a cosy home office.

MY OFFICE - MY WORLD

To be able to travel to your own world for a moment you need a space that will make it possible. A classic retro-style study done with proven, fine materials and subdued colours will be the perfect zone for relaxing, unwinding or working on your own terms.

Deep indigo furniture will make an interior classy and will frame your book collection nicely. You are afraid that one bookcase won't bear all your books? Creative allows you to create one that will.

Design your perfect bookcase and complement it with extra modules to fit in all the books. Add a comfortable desk and the perfect study is done! To add a little more character to the furniture, finish it with leather handles.

AND EVERYTHING WORKS WELL

To achieve the best work efficiency, design a space with the dream functionality and work comfort. A black desk will help you focus and organize your thoughts. Combine it with skew wooden legs to make it lighter. A set of hanging shelves and standing bookcases will help you organize your work materials. Add a little table with your favourite plant and the work will be done in no time.

TWO DESKS ARE BETTER THAN ONE

Working from home can be pleasure? Creative can do anything! By creating ,an island' from two contrasting desks you will gain not only an effective place for work but also a lot of space to find your focus. An office doesn't have to be boring - configure the same bookcases with different layouts of shelves and doors to stress the dynamics of the interior.

HOME BUREAU-CREATION

If you are arranging an office at home, Creative will help you avoid typical office 'coldness'. A large table with a black top on massive brown oak legs will bear even the heaviest debates and challenges. At the wall, instead of a traditional bookcase, you can place a large honey oak sideboard that will bring some warmth and homely feeling to the room.

What space works best for you? Do intensive colours invigorate you at work or do you prefer subdued, calming colours? The Creative palette makes it possible to create a desk matching your needs. You can choose an option with one drawer, a few smaller ones or just a spacious open recess. The final touch will be completed by choosing handles for the drawers - gentle wood, slender metal or soft leather? The choice is yours.

HALLS AND CORRIDORS

The first impression is most important. Therefore, it's a good idea to make the hallmark of our home - its hall - not only comfortable and handy, but also visually attractive. You don't have to worry about finding furniture to fit a narrow or small hall. Creative has it.

A STRONG OPENING

The hall is the hallmark of your home. It creates the first impression that transfers onto the whole house. It should not only be functional, but also visually attractive. Creative offers the perfect furniture to manage this demanding space.

TEENAGERS' ROOMS

Youth has its own rules and such rules should be followed when arranging a room for a teenager. An artistic soul, sport spirit, tenderness and girlishness in every detail - no matter what character we are dealing with, the inside of a teenager's room should be its reflection. Sit down together, and go crazy with Creative - create a unique space that will help develop teenage hobbies.

CREATIVE SPACE

Instead of looking for furniture that will fulfil all the requirements of a charismatic young personality, use the possibilities of the Creative system and configure it your way. Create a space with character that will follow even the most creative spirit. An imaginative composition of several colours from the Creative palette used in furniture of different styles will create a colourful, inspiring space.

The tall quadruple bookcase is the largest among the Creative bookcases. It will easily hold all your favourite books, CDs or documents - it depends on you what its functions will be. Thanks to the vast personalisation possibilities, you will adjust it to your needs. Creative offers 7 types of bookcases. Tall or low with open shelves? Choose by configuring your perfect furniture.

IDYLIC LIGHTNESS OF BEING

Introduce the world of easy country living to your house and maintain a holiday-like atmosphere all year long. A light grey Creative bed and bookcase will gently break the white interior without distorting its lightness and clarity. Simple furniture with natural accessories will make the room idyllic.

SENSE AND SENSIBILITY

If you want to create a delicate, girly room that will suit all teenage needs, use the possibilities Creative gives in combining charm with functionality. A nude-coloured dressing table can also work as a desk. Choosing a matching dresser will make the room warmer.

INTERIOR PASSION

Combining white with indigo and deep bottle-green will make a young interior more mature. When designing the bookcase, choose contrasting colours and asymmetrical layouts. Creative allows to freely experiment so it will satisfy even the most fussy young soul. Add a colourful desk and a vivid composition for a young individual is ready.

MORE THAN FIRST CLASS

The intensive life of young people requires an interior that works without problems, has a modern look and won't get boring too soon. The dignified indigo can be contrasted with asymmetrical light oak elements.

POWER OF ENERGY

If you are an energetic person bored by subdued interiors lacking energy and colours, feel free to experiment with the Creative configuration tool and create a distinctive space of your own. A table with a green top, an indigo bookcase, a huge nude wardrobe and a bed in the colour of energizing saffron. All seemingly from different worlds, but together they can create a lovely, atmospheric space.

MAKES YOU WANT!

A few details in an intensive colour will be enough to create a dynamic space with a unique feel. Saffron is perfect for the job! The desk as the main character will look great in the company of black and white. Where will you place the other sunny elements? It's up to you - Creative makes anything possible!

Design a bookcase with an unusual layout of shelves and cabinets - highlight the chosen elements with a colour. A saffron shelf for your favourite little things by the bed will complete the composition.

CHILDREN'S ROOMS

The Creative system will work perfect in children's rooms. Thanks to the configuration tool you can not only test interesting colour sets that will stimulate the young imagination, but first and foremost create functional and comfortable furniture - for you and your curious, quickly growing little one. Ensure the baby's comfort and safety in the smallest details by creating pieces like a handle-free wardrobe or a low bookcase with easy access to favourite toys.

If you have an idea for a perfect room for your child, make it reality with Creative. Design the bookcase to give your child access to all the favourite toys when it needs to. Many open shelves with a closed cabinet in the middle will make it both functional and pretty. When designing the wardrobe, you will appreciate the freedom to choose any number of shelves and drawers.
