VISUAL APPEARANCE

The product may reveal various wrinkles due to the combination of Elasticity of the covering, characteristics of the interior construction and the design of the product.

Products with Visual Appearance listed as High or Medium would require higher degree of care, where seats and back cushions may require fluffing and plumping more often than Products with Visual Appearance listed as Low.

NOTES

- Available in leather (TG only) or fabric.
- Ergocert Certified. Human-Centered Design certification by Ergocert, is the first European ergonomics certification body. This certification guarantees that the entire design and production process has been completed by listening to the needs of the end user to create and offer an effective and unique comfort experience.
- Version 239 (sofa 3 seater with 2 cushions) has the friction mechanism available for the arms only while version 009 has friction mechanism available for both arms and back cushion.
- Soft arm and high backrest equipped with friction mechanisms to provide unparalleled comfort.
- Soft touch sensors, positioned on the inside of the arm, operate a fluid motion footrest recliner.
- Headrest should be moved always forward and never backwards because it may ruin the front part of the covering.
- The armless relax seats have an upholstered switch flap on the side that can be easily hidden between the seats to activate the mechanism.
- The switch for version chair without arms with mechanism (versions 338/F38/F25), is on the left hand side of the seat (front view)
